

KENTUCKY NEIGHBORS.

Whitesburg, Ky., April 18.—After a shut-down after the recent flood which swept the business section of Jenkins, the mining and shipping of coal has just been resumed.

The people of Cannel City will utilize its natural gas. Mr. M. L. Conley will have all the houses of the Kentucky Block Cannel Coal Co. piped immediately and the citizens, generally, will do likewise. Murray Selts, of West Liberty, has the contract for the plumbing.

The Buddy Brewer oil well, on Shilwater, came in Wednesday morning at 3 o'clock and by daylight the oil stood 800 feet deep in the hole. The oil men claim that it will produce about ten barrels a day, but Mr. Brewer and others think it will do better than that.—Hazel Green Herald.

Joseph Deeba Nickell, of Caney creek, Morgan-co., who is now 82 years of age, has fifteen living children, sixty grandchildren and sixty-four great grandchildren, all the daughters by his first wife, a Miss Freelove Jones, before marriage. That union produced 23 children, and by his second wife, who was Miss Armina Smith, he had one child, which died in infancy.

S. M. Bradley, who recently purchased a tract of land near the oil fields in Morgan-co., was surprised last Friday to receive word that the well in which they were boring for oil, they had struck an overflow of gas, said by scientists to be the best well in the state. Mr. Bradley, not willing to give the oil question up, is having another well put down near this one, and it is predicted that he will meet with success.

Winchester, Ky., April 18.—The Hon. Tomlinson Co., of this city, closed this week one of the biggest timber deals ever known in Eastern Kentucky. It represents thousands of dollars for something like 20,000 standing trees on Macy's creek, in Perry-co. The purchasers are Mowbray & Robinson, of Cincinnati, who have several saw mills in Eastern Kentucky.

A large force of counties and branders will be put to work at once on the lot. Messrs. Geo. Tomlinson, president of the company, and George Hon. vice president, are in Perry-co., this week arranging the details of the transfer.

Dr. J. A. Stucky, Dr. S. B. Marks, Miss Linda Neville, president of the Kentucky Society for the Prevention of Blindness, accompanied by three trained nurses, left Lexington for Hindman, Ky., Friday morning, where they will remain until next Friday or Saturday, holding the annual spring clinic at the Settlement School at that place. The party took the L. and E. to Hazard, where they

will spend Friday night, starting overland on mules and in wagons to Hindman, forty miles from Hazard. Their work will consist mainly of strabismus and other eye diseases as well.

Stockholders of the Poplar Oil Co., were visitors Wednesday on the tract of land they have under lease on the Kentucky side of the river about three miles from Devon and they selected the location of a test well which is to be drilled immediately. These who made the trip were Judge John H. Holt and Attorney Harry Duncan, Jr., of Huntington, Senator M. Z. White and Mr. Alex Bishop, of this city. Gov. Hatfield is a stockholder in the company.

In addition to being an eminent jurist Judge Holt is also acquiring fame as a geologist and he was called upon to look over the rocks and select a location that will insure a 500 barrel gusher.

After locating the well Judge Holt spent several hours in Williamson, where he has a host of warm friends and admirers.—Mingo Republican.

Lewis Stoker, of Youngstown, O., represents an oil company at that place, which, through him, has leased in the neighborhood of 10,000 acres of land lying between Cannel City and Gillmore creek, for which they paid ten cents an acre rental. He said that in the course of three months there would be more oil wells in the territory contracted by his company than had been put down in this section up to the present. He thinks there is an abundance of the oleaginous fluid in that territory and says his company is going after it, even to the depth of darkness in China. Also, there are two other companies in his town both of which are as energetic as his own.—Hazel Green Herald.

Fidavy Dennis, about sixty years old, was shot and almost instantly killed by Dr. O. H. Motley at Ezel Saturday night about 8 o'clock.

Details of the affair were hard to get but from the best reports obtainable the shooting, which seemed to be the result of an old grudge was premeditated. Report has it that Motley had his pistol repaired in the afternoon, purchased cartridges and was waiting for Dennis to come out of a store where he was trading. When he came out Motley asked him if he was going to sing that little song about him any more. Dennis replied that this was a free country and he would sing when he pleased, whereupon Motley fired as Dennis was getting on his mule, the ball taking effect in the side below the right nipple. Motley was lodged in jail at West Liberty.

WEST VIRGINIA NEIGHBORS.

Clarksburg, W. Va.—Maddened when he saw a man leaving his wife's apartments at the home of her mother this morning Everett Dois seized a shotgun and shot her dead. He then walked to the police station and gave himself up.

Smallpox, real smallpox on Pad-die creek. This report will scare several, no doubt, but dozens are dying yearly in the county of consumption and no one is excited about it. You need not be so afraid of smallpox it is curable, but be careful about consumption.

Washington, April 16.—The first presidential postmaster nominated by President Wilson in West Virginia was J. Garland Hurst, whose nomination to be postmaster at Harpers Ferry was sent to the senate today. Mr. Hurst was recommended by Congressman Brown some weeks ago and gave up his position in Washington to get his business in shape to take the office. He is appointed to succeed William L. Erwin.

Logan, W. Va., April 16.—Twenty-five hundred men are idle here in logging camps and coal mines as a result of the suspension of railroad traffic by the flood. On the C. and O. line between Logan and Huntington are more than a score of idle engines and crews, the result of flood conditions. Until the line is put in working order again, no coal can be shipped out, nor can any empty cars be available. An early resumption of traffic is expected.

The Coal and Coke Operator, devoted to the coal mining industry, pieces the following estimate upon the quantity of West Virginia coal: "West Virginia has 16,280 square miles of marketable coal; she employs 78,000 mine workers and is second in coal production in the states of the Union. At the present rate of production it will take over 1,100 years to exhaust the merchantable veins now in market, not calculating the immense undeveloped fields in remote sections of the vast deposits that may be reached by shaft mining."

James Brady, the well known democrat, and the present mayor of the town of Barboursville has won the endorsement of Senator William E. Chilton for postmaster at Barboursville, following a strenuous contest participated in by a half dozen or more democrats in the ex-county seat.

Information was received here yesterday to the effect that Senator Chilton had announced his decision in the matter and his recommendation will no doubt be acted upon favorably by the president and postmaster general. Brady has been one of the democratic leaders at Barboursville for several years.

He is the owner of a general merchandise store.

The battle for the Barboursville postmastership has waxed warm for several weeks. Among those who aspired to succeed the present postmaster, J. H. McComas, were Jas. Blume, Jas. Wilson and ex-Mayor Heffner. The Barboursville office is a fourth class office and the salary is \$1,000 a year.

On June 20 at 12 o'clock, noon, West Virginia will be exactly fifty years old. This event of course will be fittingly celebrated all over the state, the celebration centering at Wheeling.

Of interest in this connection is the fact that Mrs. Lucy (Knopp) Gardner, now living at Parkersburg, was probably the first child born in West Virginia. Her birth occurred simultaneously with the birth of the state on June 20, 1863, near Point Pleasant, Mason-co. If it is found that Mrs. Gardner was the first child born in the new state, she will be asked to attend and take a prominent part in the celebration at Wheeling.

It seems almost impossible that a man could fall 110 feet and still live, but such is the case.

J. P. Huff, of Soudan, Va., while working on the central span of the big N. & W. bridge last Saturday afternoon, was struck by a timber, called a "runner," and knocked off. He landed in the Ohio river, 110 feet below. He was not rendered unconscious and immediately began paddling to keep afloat until the people from the shore, who witnessed the accident, could reach him with a boat.

Mr. Huff is the fifth man to fall from the bridge in the past year. His escape from instant death is certainly miraculous.

Green Woolford, a fugitive from justice since he killed W. C. Calhoun at Vulcan last July, was captured Sunday on Peter creek by detective Epling, of Thacker. When the officer appeared at his home Woolford got the drop on him with a Winchester, but through a clever ruse the officer extricated himself from his dangerous situation and landed his man.

For some time Woolford has been working in the head house of the Freeburn Coal Company. Epling was given requisition papers for him soon after the killing and located him not long ago. Woolford observed his approach and barred the door of his house. Grabbing his Winchester he commanded Epling to cross the creek and go back to the West Virginia side of the river.

Epling took his good naturedly and replied that he was looking for another man. After some further talk Epling walked away a few steps when he heard Woolford say, "I'll step out just to show him I'm not afraid." When he came out Woolford was carrying the Winchester by the barrel and seeing that it was not in shooting position, Epling was able to get the drop on him. Mingo Republican.

"BLOOD IS THICKER THAN WATER"

Without good red blood a man has a weak heart and poor nerves. Thinness of the blood, or anemia, is common in young folks as well as old. Especially is it the case with those who work in ill ventilated factories—or those who are shut up indoors in winter time with a coal stove burning up the oxygen or emitting carbonic (poison) gas. Thin blood, or blood which lacks the red blood corpuscles, in anemia: people may have been caused by lack of good fresh air breathed into lungs, or by poor digestion or dyspepsia. Sometimes people suffer intense pain over the heart which is not heart disease at all, but caused by indigestion. Whatever the cause, there's just one remedy that you can turn to—knowing that it has given satisfaction for over 40 years.

DR. PIERCE'S GOLDEN MEDICAL DISCOVERY

It is a blood cleanser and alterative that starts the liver and stomach into vigorous action. It thus assists the body to manufacture rich red blood which feeds the heart—nerves—brain and organs of the body. The organs work smoothly like machinery running in oil. You feel clean, strong and strenuous instead of tired, weak and faint. Nowadays you can obtain Dr. Pierce's Golden Medical Discovery Tablets, as well as the liquid form from all medicine dealers, or by mail, prepaid, in \$1 or 50c size. Address R. V. Pierce, M.
